Past Perfect Simple

Timpul verbal Past Perfect se formeaza cu ajutorul verbului auxiliar **to have** la trecut si verbul de exprimat la **participiu trecut** sau **forma a III-a** pentru verbele **neregulate** sau **verb + ed**, pentru cele **regulate**.

Affirmative:

I/you/we/they had **seen/played**

He/She/It had **seen/ played**

Interrogative:

Had I/you/we/they **seen/played?**

Had he/she/it **seen/played?**

Negative:

I/you/we/they had not(hadn't) **seen/played**

He/She/It had not (hadn't) **seen/played**

Folosim Past Perfect Simple pentru:

1. Pentru a exprima o actiune trecuta care a avut loc inaintea unui moment din trecut sau inaintea unei actiuni din trecut:

*The boy explained that he **had seen** somebody in the garden. (Baiatul a explicat ca a vazut pe cineva in gradina)*

*Father came home after Dick **had done** his homework. (Tata a venit acasa dupa ce Dick si-a facut tema)*

*Dick **had done** his homework before father came home. (Dick si-a facut tema inainte ca tata sa ajunga acasa)*

2. Pentru a exprima durata pana la un anumit moment din trecut:

*By the time the rain started, we **had dug** the whole garden. (Pana ca ploia sa fi inceput, noi am sapat intreaga gradina)*

3. Cu just, already, hardly/barely/scarcely and no sooner, pentru a arata ca o actiune trecuta a fost terminate cu putin timp inainte de alta actiune trecuta:

*Mary told us that her brother **had just left**. (Maria ne-a spus ca fratele ei tocmai a plecat)*

*We did not know that **he had already repaired** his car. (Noi n-am stiut ca el si-a reparat déjà masina)*

*I **had hardly/scarcely entered** the room when somebody knocked at the door. (Numai ce am intrat in camera cand cineva a batut la usa)*

4. Cu **since** si **for** atunci cand momentul de referinta este in trecut:

*In 1980 I **had been** a teacher for ten years. (In 1980 era profesor de 10 ani)*

*I knew she **had not seen** him since Christmas. (Am stiut ca nu l-a vazut de la Craciun)*

VERBELE MODALE

Can, could, may, might, must, need, should, ought to, shall, will, would.

Caracteristici generale

- Nu primesc *to* inaintea lor si dupa ele:

Ex. *Can* is a model verb.

I can do this. (Pot sa fac aceasta.)

Spre deosebire de:

I want to do this. (Vreau sa fac aceasta.)

- Nu primesc *s* la persoana III singular, prezent.

Ex. He can speak English.

- Nu formeaza negativul si interrogativul cu „to do”.

Ex. He cannot (can't) speak English.

- Nu au toate timpurile. Se folosesc inlocuitori.

Can

1. are sensul de *a putea, a fi în stare*

Ex. I can make this translation.

Can = *infinitiv, prezent*

Negativ: cannot, can't

Ex. I cannot (can't) make this translation.

Interrogativ: Can I? Can you? etc.

Ex. Can you make this translation?

Could=Past Tense, conditional prezent al verbului *can*

Negativ: could not (couldn't)

Interrogativ: Could I ? Could you? etc.

Ex. I couldn't come to you yesterday.

N-am putut să vin la tine ieri.

Could you help me?

Ai putea să ma ajuti?

Pentru *conditionalul trecut* se foloseste could + infinitivul trecut

Ex. He could have been here in time.

Ar fi putut să fie aici în timp.

Pentru celelalte timpuri se foloseste inlocuitorul *to be able to*.

Ex. I will be able to come to you tomorrow.

Voi putea veni la tine mâine.

I haven't been able to ring you up this week.

N-am putut să-ti telefonez săptămâna aceasta.

2. Arată o anumita abilitate fizică sau intelectuală. Se traduce cu *a sti sa*.

Ex. I can swim. (Stiu să inot.)

I can speak English. (Stiu să vorbesc engleză.)

Cu acest sens, timpurile se folosesc ca la punctul 1 (could pentru Past Tense și conditionalul prezent, inlocuitorul *to be able to* pentru celelalte timpuri.).

Ex. I will be able to drive a car after I have taken a few lessons.

Voi sătii să conduc mașina după ce voi lua câteva lecții.

3. În vorbirea familiară, can poate fi folosit cu sensul lui may de „a avea permisiunea”.

Ex. Father, can I take your car?

Tata, pot/am permisiunea să iau mașina ta?

4. Can't/couldn't – nu se poate să, nu e posibil să.

Ex. It can't/couldn't be 9 o'clock. The sun hasn't set yet.

Nu se poate să fie ora 9. Soarele nu a apus încă.

Pentru a reda ideea de trecut cu acest sens, se foloseste infinitivul trecut.

Ex. You can't/couldn't have seen John in the street. He is abroad.

Nu se poate să-l fi văzut pe John pe strada. El este în străinătate.

May

1. are sensul de a putea, a avea permisiunea

Ex. May I smoke in this room?

Pot/am permisiunea sa fumez in aceasta camera?

Yes, you may. (Da, poti.)

Negativ: may not, mayn't

Interrogativ: May I? May you?

May = infinitiv, prezent

Cu acest sens exista timpul *might* care reda ideea de trecut, dar se foloseste numai dupa un alt verb la trecut (vorbire indirecta).

Ex. He said I might smoke in that room.

Pentru celelalte timpuri se folosesc inlocuitorii: *to be allowed to*, *to be permitted to*.

Ex. I was allowed/permited to smoke in that room.

Am putut/mi s-a permis sa fumez in camera aceea.

I will be allowed/permited to smoke in that room.

Voi putea/mi se va permite sa fumez in camera aceea.

2. May/Might – s-ar putea sa

Ex. Take your umbrella. It may/might rain.

Ia-ti umbrela, s-ar putea sa ploua.

Ring up John. He may/might be at home now.

Telefoneaza-I lui John. S-ar putea sa fie acasa acum.

Cu acest sens, ideea de trecut este redată prin adăugarea infinitivului trecut.

Ex. Why didn't you take your coat? You may/might have caught a cold.

De ce nu ti-ai luat haina? S-ar fi putut sa racesti.

3. May/might pot exprima un repros.

Ex. You may/might help me when I am in need.

Ai putea sa ma ajuti când sunt la nevoie.

Pentru redarea ideii de trecut, se adauga infinitivul trecut.

Ex. You might have written me a letter when you were in England.

Ai fi putut sa imi scrii o scrisoare când erai in Anglia.

Must

1. A trebui

Ex. It's got late. I must go home.

S-a facut tarziu. Trebuie sa plec acasa.

Negativ: must not, mustn't

Interrogativ: Must I? Must you?

Must = infinitiv, prezent

Nu are alte timpuri.

Se foloseste inlocuitorul *to have to*.

Ex. I had to finish the translation yesterday.

A trebuit sa termin traducerea ieri.

I will have to finish the translation tomorrow.

Va trebui sa termin traducerea mâine.

Trebuie mentionat faptul ca inlocuitorul lui must, *to have to* formeaza interogativul si negativul cu ajutorul auxiliarului to do.

Ex. I didn't have to finish the translation yesterday.

2. De asemenea, poate avea sensul *probabil ca*:

Ex. It must be late. Let's go home.

Probabil ca e târziu. Hai sa mergem acasa.

John must be at home now. Let's call on him.

Probabil ca John e acasa acum. Hai sa-l vizitam.

Cu acest sens, ideea de trecut se reda prin adaugarea infinitivului trecut.

Ex. I was asleep when you arrived home last night. It must have been late.

Eu dormeam când ai venit tu aseara. Probabil ca era târziu.

Need

Există două verbe:

- *To need*: verb obisnuit, notional, cu sensul de *a avea nevoie*

Ex. He doesn't need this book.

El nu are nevoie de aceasta carte.

- *Need*: verb modal, cu sensul de *a fi nevoie*

Ca verb modal, *need* se folosește numai la interogativ și negativ.

Ex. Need I be here at one o'clock?

E nevoie sa fiu aici la ora 1?

No, you needn't.

Nu, nu e nevoie.

Pentru a răspunde afirmativ la întrebarea de mai sus, se folosește verbul *must*.

Ex. Need I be here at one o'clock?

Yes, you must! (Da, trebuie!)

Pentru exprimarea ideii de trecut a verbului need, există 2 posibilități:

- Dacă acțiunea nu era necesară, dar a fost făcută, se folosește *needn't + infinitivul trecut*.

Ex. You needn't have watered the flowers.

Couldn't you see it was going to rain?

Nu era nevoie sa uzi florile. N-ai vazut ca urma sa plouă?

- Dacă acțiunea nu era necesară și nu a fost făcută, se folosește *didn't need + infinitivul*

Ex. We didn't need to do this exercise.

The teacher told us it was too easy for us.

Nu a fost nevoie sa facem acest exercitiu. Profesorul ne-a spus că e prea usor pentru noi.

Nota: Nu trebuie confundat need not cu must not. Need not se traduce cu „nu e nevoie”. Must not se traduce cu „nu trebuie”.

Ex. You needn't drive so fast; we have enough time.

Nu e nevoie sa conduci atât de repede; avem destul timp.

You mustn't drive so fast; there is a speed limit here.

Nu trebuie sa conduci atât de repede; aici e limita de viteza.

Should, Ought to

Ambele verbe indica o actiune corecta, o obligatie morala, o recomandare. Se traduc cu: *ar trebui sa, ar fi cazul sa, ar fi bine sa*.

Ex. You should/ought to help your mother with housework.

Ar trebui sa o ajuti pe mama ta la treburile casei.

Pentru a reda ideea de trecut, se adauga infinitivul trecut.

Ex. You should not/ought not to have been so rude to him.

Nu ar fi trebuit sa fii atât de nepoliticos cu el.

Shall

Folosit cu persoana I, shall indica viitorul.

Folosit cu persoana I, interrogativ, poate indica, de asemenea, solicitarea unui sfat, o oferta sau o sugestie.

Ex. Which dress shall I buy?

Ce rochie sa cumpar?

Shall I wait for you?

Sa te astept?

Shall we meet at one o'clock?

Sa ne intâlnim la ora 1?

Folosit cu persoanele II si III, shall poate arata o promisiune, o obligatie sau o amenintare care provin de la cel care vorbeste.

Ex. Mother to child: You shall have a bicycle if you pass the exam.

Mama spune copilului: Vei avea o bicicleta daca vei lua examenul.

Mother to child: You shall not get any pocket-money if you don't pass the exam.

Mama spune copilului: Nu vei mai primi nici un ban de buzunar daca nu vei lua examenul.

Will, Would

- Formula de politete, cerere politicoasa:

Will you/would you sit down?

Will you/would you help me with my translation, please?

- A voi (cu sens extins la obiecte):

This child will/would not do what I say.

Acest copil nu vrea sa faca ce-I spun.

This radio won't work.

- Actiune repetata:

- *in perioada prezenta*

My mother will sit for hours watching TV.

Mama mea obisnuieste sa stea ore intregi privind la televizor.

- o *in trecut*

When I was a child, my mother would read me fairy tales.

Când eram copil, mama obisnuia sa-mi citeasca povesti.

- Presupunere: se traduce in limba română cu o fi.

This girl looks very much like Jane.

She will be her sister.

Aceasta fata seamana foarte bine cu Jane. O fi sora ei.

Se poate folosi cu infinitivul trecut:

He will have reached Paris by now.

O fi ajuns la Paris pâna acum.

Nota: *In afara de „would”, ideea de actiune repetata in trecut se poate exprima cu „used to”.*

Ex. When I was a child, my mother used to read me fairy tales.

Used to este un verb semi-modal, care are numai forma de trecut.

Un alt verb semi-modal este dare (a indrazni) care se conjugă la afirmativ ca un verb obisnuit, în timp ce la interrogativ și negativ se poate conjugă atât ca un verb obisnuit cât și ca modal.

Past Perfect Continous

Timpul verbal Past Perfect se formează cu ajutorul verbului auxiliar **to have** la trecut, **participiul trecut** sau trecut al verbului **to be** și verbul de exprimat cu terminația **-ing**.

Affirmative:

I/you/we/they **had been going**

He/She/It **had been going**

Interrogative:

Had I/you/we/they **been going?**

Had he/she/it **been going?**

Negative:

I/you/we/they had not(hadn't) **been going**

He/She/It had not (hadn't) **been playing**

Folosim Past Perfect Continous :

1. Pentru a exprima continuitatea unei actiuni trecute pana la un anumit moment sau chiar inaintea lui :

*The pupils **had seen reading** the lesson for five minutes when the school master entered the classroom.*

(Elevii citeau lectia de 5 minute cand directorul a intrat in clasa.)

2. In vorbirea indirecta pentru a exprima Past Tense Continous sau Present Perfect Continous din vorbirea directa:

*"I **was watching** TV at seven o'clock," Harry explained to his mother.*

(“Ma uitam la televizor la ora 7,” a explicat Harry mamei sale.)

Harry explained to his mother that he **had been watching** TV at 7 o'clock.

(Harry a explicat mamei sale ca se uita la televizor la ora 7.)

*"We **have been learning** English for two years," the children told me.*

(“Noi invatam engleza de 2 ani,” mi-au spus copiii.)

The children told me that they **had been learning** English for two years.

(Copiii mi-au spus ca ei invata engleza de 2 ani.)

The Conditional

Type 1

(open/probable condition)

Main/Regent Clause
Future

“If” CLAUSE
Present

Mary will buy that book if she finds it.

(Mary va cumpara cartea aceea daca o va gasi)

I think that the boys will play with us if they come here.

(Cred ca baietii se vor juca cu noi daca vor venii aici)

Such sentences express a condition that may or may not be fulfilled. So, Mary may find the book she may not., the boys may come here or they may not.

Type 2

(rejected/improbable/hypothetical/unreal condition)

Prezent
Conditional

Past tense
(be---were)

Mary would buy that book if she found it.

(Mary ar cumpara cartea aceea daca ar gasi-o)

My friend would help me if he were here.

(Prietenul meu m-ar ajuta daca ar fi aici)

The Past Tense is the conditional clause is not a real Past Tense but a Subjunctive, indicating improbability on a unreality, namely something contrary to present fact. So, at this moment "Mary hasn't found the book yet" and "my friend isn't here yet."

Type 3

(impossible condititonal)

Past Conditional

Past Perfect

Mary would have bought that book if she had found it.

(Mary ar fi cumparat cartea aceea daca ar fi gasit-o)

The conditional clauses expresses something completely hypothetical, and represents what is contrary to past fact. The Past Perfect indicates "past unreality". (Mary didn't find the book.)
